

## OCONTO DAM BROKE DOING MUCH DAMAGE

MILLIONS OF FEET OF LOGS  
ARE TIED UP THEREBY

Loss Will Be About Four Thousand Dollars—Cloudburst at Massillon, Ohio, Results in the Death of One Man, While Others Are Missing—Storm News.

Oconto, May 11.—[Special]—The big dam at this place was carried out by the high water consequent to the storm and the damage done will foot up over \$4,000. The work of log driving is entirely suspended and five hundred million feet of logs are tied up on the St. Croix river waiting for rain.

Massillon, O., May 11.—A cloudburst here last night washed out a number of bridges on the Cleveland, Lorain & Wheeling and Wheeling & Lake Erie railroads.

People in Summit and Erie streets are being removed in boats. Immense damage is reported. At 11 o'clock the Wheeling & Lake Erie wreck train left Massillon to go to Dalton to repair trestles. One mile and a half west of town a bridge had been washed away, leaving only the unsupported track and ties. The train plunged into the water below with all on board. The engine is buried to the bell in the torrent, one man is drowned probably, and several are hurt. Supposed to be drowned. GIBSON, GEORGE R., trainmaster.

The injured: Merwin, J. N., clerk for Supt. F. J. Stout; wounded on the head in the railroad wreck. Stout, Supt. F. J., taken out of the railroad wreck with a broken arm. Taylor, the fireman, caught in the railroad wreck and cannot be extricated; he seems to be alive. One of the crew, leg broken by the railroad wreck.

DELUGE AT HERMANVILLE, MISS.

Torrent Rushes Through the City Streets—Great Damage Done.

Hermanville, Miss., May 11.—The cloudburst at this place Thursday did great damage to property, but no lives were lost. The downpour of rain was terrific, rapidly filling and overflowing all streams in the neighborhood. The town and surrounding country were a sea of surging water. Fences, out-houses, etc., were swept from their foundations, and through the main street of the town rushed a raging river five feet in depth. It overflowed many houses, sweeping over the ground floor, and the stock which could not be got up in time had to swim to places of safety. Men had to give up the task of rescue, as the water soon rose above their heads. The people sought safety in second stories. Wires are all down, heavy trees having fallen across them.

## GAS MAIMS A DOZEN.

Twelve Persons Hurt in a Block at Chicago.

Chicago, May 11.—A terrific explosion of natural gas at 1:15 this morning wrecked the three-story brick building, No. 10 Sherman street, occupied by John Apple, a saloonkeeper; the Lake Carriers' association, and John Michaels, as a roominghouse. Flames broke out immediately, and twelve people were injured, some by jumping from the burning structure, others by flames and the inhalation of smoke. The explosion occurred in the basement, just exactly how no one seems to know. First there was a slight report, then another which sounded like the firing of a company of soldiers. The building shook as if an earthquake was in progress, the windows were shattered into thousands of fragments, and in a moment flames commenced to pour from the windows of the saloon. At 2 o'clock it was discovered that a night bartender, whose last name was not known, had not been seen since the explosion. He is thought to be buried in the ruins. John Michaels jumped from a window and was injured internally so that he will die. No other serious injuries are reported. The financial loss was slight.

Nebraska Requires No More Aid.

Lincoln, Neb., May 11.—Gov. Holcomb has authorized the following statement: "I have been advised by the state relief committee that the wants of people in the drought stricken portions of Nebraska have been supplied to such an extent that further contributions from sources outside of the state are unnecessary, and there remains in the hands of the treasurer of the commission sufficient funds to care for any isolated cases which may arise." He expresses the fervent thanks of Nebraska for the generous help of the country.

Both Will Be Executed To-day.

St. Louis, Mo., May 11.—James Murray will hang at Clayton and Ed Murray, his brother, at Hermann to-day for the murder of Conductor Edgar Fitzwilliam on the Midland suburban electric lines, September 23, 1893. The motive was robbery. In January an attempt was made to lynch the Murphys in the jail at Clayton, but the attempt was frustrated and they were brought to St. Louis and kept there until a few weeks ago.

Defeat for Kaiser Wilhelm.

Berlin, May 11.—The reichstag rejected the committee's amendment to paragraph 111 of the anti-revolution bill, which is the chief section of that measure, and next the reichstag rejected paragraph 111 altogether.

Jem Smith Whips Ted Pritchard.

London, May 11.—Jem Smith and Ted Pritchard fought last night at the Central Hall, Holborn, for the heavy-weight championship of England, £200 a side, and a purse. The decision was to be given to the best man in twenty rounds. Pritchard was knocked out.

## NEW OFFICERS FOR A. P. A.

Supreme Council Decides to Make the Order International.

Milwaukee, Wis., May 11.—Three sessions of the Supreme Council of the A. P. A. were held yesterday. The international committee, representing Canada and this country, reported that they had decided upon a declaration of principles for the order in all countries. The report has yet to be adopted by the supreme body in Canada. Among its important features are the pledging of the support of the order in all countries and loyalty to their flags. In constitutional countries, it will pledge support to the constitution and in monarchial countries to the monarchy. Any government changes desired are to be worked for and secured through the government.

The council reaffirmed the principles which were set forth in the platform adopted at Des Moines last year. It affirms that the A. P. A. is not a political party, is tolerant of all creeds, but opposed to the holding of public office by any subject or supporter of an ecclesiastical power. It declares in favor of public schools and opposes the employment of any subjects of an ecclesiastical power as teachers or officers of the schools. It condemns the giving to sectarian institutions any part of the public moneys and declares for the taxation of all property not owned by the government. It demands a restriction of immigration, a change in the naturalization laws to make seven years residence a necessary condition of citizenship, and that all institutions be opened to public inspection.

With the exception of President Traynor and Secretary Beatty an entire new set of officers was elected. Following is the result: Supreme president, W. J. H. Traynor, Detroit; supreme vice president, Judge J. H. Jackson, Fort Worth, Tex.; supreme secretary of state, E. H. Dunbar, Boston; chaplain, J. M. Taubelle, Covington, Ky.; supreme treasurer, C. T. Beatty, Detroit; supreme treasurer, Francis Campbell, Minneapolis; supreme sergeant-at-arms, J. H. Woolman, Santiago, Cal.; supreme guard, John King, St. Louis; supreme sentinel, William B. Howard, Omaha; supreme trustees, W. J. Palmer, Butte, Mont.; J. M. Snyder, Washington, D. C.; H. M. Starks, West Superior, Wis.

Shortly before midnight the council decided to hold its next annual meeting in Washington, D. C. The convention will probably finish its business to-day.

Addressees Y. M. C. A. Delegates.

Springfield, Mass., May 11.—President J. M. Coulter of Lake Forest University, Illinois, addressed the International Y. M. C. A. convention yesterday on "The international permanent fund and its relation to the international work." Steps have already been taken by the State committees of the Y. M. C. A. for Massachusetts and Rhode Island toward an endowment fund. Forty persons already have subscribed \$1,000 each and a building given, the revenue from which will be devoted to the extension of work among railroad men and in cities and towns.

President Moore called for pledges in support of the international work for the next two years, and immediately pledges from associations from all over the country began to pour in, amounting to \$4,310. Afterwards individual pledges were called for and \$15,454 was pledged. The next convention will be held at Mobile, Ala.

Not Regarded with Apprehension.

Winnipeg, Man., May 11.—It is said Premier Greerway and Attorney-General Sifton will leave for Ottawa next week. The rumor is that the recent letter from Lord Aberdeen summoned these gentlemen to Ottawa to see if something could not be done to escape the difficulty created by the sweeping terms of the remedial order. Among national school supporters the reported visit of the Ministers to the East is not regarded with apprehension, as members of the government have publicly and privately declared their attitude on the school question.

## A FIRE AT CHICAGO COST MANY LIVES

BUILDING AT 10 SHERMAN STREET DESTROYED

One Man Dead and Several Others Fatally Injured—Village of Oakfield, Near Batavia, N. J. Wiped Out By a Blaze This Morning—Other Conflagrations.

Chicago, Ill., May 11.—A fire in which one man is known to have lost his life and ten others were injured, four of them probably in a fatal manner, occurred in a rooming house at No. 10 Sherman street, at 1:15 this morning.

The building is a three-story brick, standing directly across Sherman street from the north end of the Board of Trade building. The first floor was occupied as a saloon by H. Hoppel, and the floors above used as a cheap hotel and rooming house by August Michael, who jumped and was fatally hurt. One dead man was found in a front room, and two others badly burned and nearly suffocated. In another room was found a daughter of Michael, and in other rooms and in the hallway, five men, one of them dying.

A Village Wiped Out.

Rochester, N. Y., May 11.—The village of Oakfield, a few miles from Batavia, was entirely destroyed by fire this morning and there rumors of lives being lost. The fire started at 2 o'clock a. m. and swept all before it, Buffalo being asked to send assistance. Fields about the burning village are filled with refugees who have saved nothing from the flames.

Flames in a Pottery.

Zanesville, O., May 11.—The greater part of the large pottery plant of S. A. Weller, was burned yesterday, including the new building for the manufacture of Lenthuda ware, which is similar to the celebrated Rookwood pottery of Cincinnati. The loss is about \$50,000, with an insurance of \$54,000.

Almost Entirely Destroyed.

Ceresco, Neb., May 11.—The entire business portion of this town was destroyed by fire early this morning. The postoffice, banks, hotel and every store in the place was consumed.

SAND AND DUST STORM.

Drop in Temperature Accompanied by a Mild Form of Cyclone.

Kansas City, Mo., May 11.—One of the worst sand and dust storms in years prevailed in Oklahoma and at one or two points in Kansas yesterday. At Pittsburg, Kan., comparatively no outdoor work could be accomplished. The ground is baked and all crops are suffering for want of rain. At Guthrie, Ok., a terrific windstorm from the north struck the town in the afternoon and the temperature fell rapidly. The air suddenly became dark with dust and sand, and for a time the people sought their cyclone cellars in fear of a twister. Ten miles northeast of Guthrie the storm did partake of a cyclone and much damage was done, though as far as can be learned nobody was injured.

At Kingfisher, Ok., a sandstorm of great vehemence raged from 1 o'clock in the afternoon until late in the evening. For five hours the storm kept up with unabated fury, the temperature during that time falling 37 deg. It is believed nobody in this vicinity was hurt, though whose reports are likely to come from the country towns, which it is known must have been struck by the storm. The town of Hennessy was also struck, but the extent of the damage suffered there, if any, is not known.

DO LITTLE BUSINESS.

Illinois Legislators Hold Short Session and Hurry Home.

Springfield, Ill., May 11.—Yesterday's session was the tamest yet held by the legislature. The senate adjourned five minutes after it convened and the house confined its operations to passing appropriation bills. Arrangements had been made for a forenoon session, but as most of the members went home either last night or this morning it was decided to take up only bills on second reading. Next week promises to be a most interesting one in both houses. The revenue reform bill prepared under the direction of the Chicago real estate board will come up on Tuesday for final consideration and it is the intention of that organization to make a determined effort to secure its passage. The bill has been riddled by the country members, but it is hoped it will be possible to replace some of the meritorious clauses stricken out yesterday and enact a law which will improve the present assessment system. The Cooper case may be revived in the senate on Wednesday. Senator Dwyer, in Salomon's behalf, entered a motion to reconsider the vote and it was made a special order for Wednesday. Nobody has an idea the result will be altered in the least. The house advanced the school teachers' pension bill to second reading.

## NEW 'PHONE COMPANY TO FIGHT THE BELL

"WILDE MICROPHONE" TO BE USED IN THIS COUNTRY.

Seventy Five Dollar Cablegram Used to Close the Contract With the Frenchman Who Owns The Patents—Firm is Strong enough to Compete With the Monopoly.

Madison, May 11.—[Special]—The famous Wilde "long distance microphone," which is said to be destined to replace the Bell telephone, is to be controlled exclusively by a company formed in this city. The deal with the French company owning the patents was closed this morning by a seventy-five dollar cablegram from the French company, containing the contract. The new company is backed by capital large enough to allow it to compete with the great monopoly, the Bell Telephone Company. The microphone has been in use in Europe for seven years, and its success is proved. It has been used by the French, British, Italian, Spanish and South American governments, and by private companies in Europe. The company is to be known as the "Standard Telephone and Electric Company of Minneapolis," and the officers are as follows:

President, P. L. Spooner, Madison.

Vice President, B. B. Clarke, Madison.

Secretary, E. L. Bachelder, Minneapolis.

Large capitalists in Minnesota and Wisconsin are backing the scheme, and it will cut down the telephone rates everywhere by competing with the Bell company.

TRAGEDY AT LEXINGTON, KY.

Albert C. Hall Kills Volney Beard for Wrecking His Home.

Lexington, Ky., May 11.—Volney Beard, single, 32 years old, was shot and killed at 7 o'clock yesterday by Albert C. Hall, a groceryman, for whom Beard formerly clerked. Several weeks ago Hall discovered that his wife and Beard were on intimate terms and discharged the latter. Hall sent for Beard and, in the presence of Mrs. Hall, said he was going away forever, and would leave his wife to Beard to care for. Hall put on his hat and started for the door, when Beard attempted to restrain him. A terrific struggle ensued, in which Hall pulled a pistol and shot Beard, killing him. Hall was arrested and his wife voluntarily accompanied him to jail. The men were cousins.

No Warrants for Gov. Morrill.

Topeka, Kan., May 11.—The complaint against Gov. E. N. Morrill for obtaining money under false pretenses was filed yesterday with Justice F. M. Grover, but no warrant was issued. It is doubtful if it ever will be.

Snowstorm at Fort Robinson, Neb.

Fort Robinson, Neb., May 11.—The fall in temperature of 32 degrees in twelve hours brought on a snow storm which lasted half an hour and made the hillsides white. The weather was cool all day with occasionally a bit of hail.

## BIG SALE OF BONDS LAST WEEK

R. J. Dun's Commercial Report Says That Was the Chief Trading.

New York, May 11.—R. G. Dun & Co.'s Weekly Review of Trade says: "The event of the week is the demoralization of foreign exchange, caused by enormous sales of bonds abroad. Besides a sale of \$10,000,000 Manhattan and other railroad bonds through the syndicate large purchases on foreign account have been made for some weeks, so that the aggregate probably exceeds \$50,000,000 since the sale of governments. Safety for the summer means much for all business, and the syndicate deems it so fully assured that it distributes 40 per cent of the money advanced by its associates, which relieves a large amount to stimulate operations in securities and products.

"Crop prospects also have greatly improved and this is of still higher importance, as it will do much to determine the character and volume of all business after summer uncertainties are over. In addition business is reviving, although the gain in great industries is retarded by many strikes. Sales of wheat for the week have been 34,000,000 bushels against 35,000,000 the previous week and 81,000,000 the week before, but Thursday brought new activity. Wheat had fallen 2½ cents but rose 2 cents that day. Western receipts are 1,467,169 bushels, against 1,261,764 last year, and Atlantic exports, flour included, 1,615,051 bushels, against 2,214,041 last year. In three weeks since the rise in wheat these exports have been 5,160,121 bushels, against 7,849,971 last year. Pork has fallen 25 cents per barrel, lard 20, and hogs 30 cents per hundred pounds.

"The output of iron still exceeds the consumption. Bessemer pig has been raised to \$10.90 at Pittsburgh and the general demand for finished products does not equal the recent output, but is distinctly increasing. Bars and sheets selling more largely, though structural specifications are disappointingly slow. The noteworthy gain is in orders for steel rails, 30,000 tons for the Pennsylvania and 50,000 for a Western road. Coke production still lessens, 6,732 tons for the week and 38,356 or 23 per cent in the last three weeks. Tin has been raised to 14.4 cents and copper to 10½ by increasing demand.

"Sales of wool for the week are less than in 1892, but larger than in the last two years, though prices do not rise. Rather more demand appears for men's woolsens, but cancellations are also more numerous, and imports of woolen goods with withdrawals from warehouses were about \$19,000,000 in the first quarter of the year against \$5,000,000 last year.

"The failures this week have been 227 in the United States against 296 last year, and thirty-four in Canada against forty-two last year."

May Raise a Loan of \$900,000,000.

Paris, May 11.—M. Hanotaux, minister of foreign affairs, has invited the leading financiers to meet to consider the impending Chinese loan, the ways in which the bourse might co-operate, and the conditions on which French capital might participate. It will not be surprising if the loan reaches \$180,000,000 (\$900,000,000). The powers, while discussing so important a financial operation, will not arrive at a decision without consulting London, without co-operation such an enterprise could not be taken.

New Court of Claims in Michigan.

Lansing, Mich., May 11.—The special charter of the Michigan Central railroad company contains a provision that in case of its alteration or revision the state shall pay the company all damages resulting from such legislation. The senate has agreed to a bill which establishes a court before which and a jury all claims for damages shall be adjusted. A bill was passed in the senate providing that the proper methods of preventing the spread of contagious diseases be taught in the public schools.

Charged with Conspiracy.

Pierre, S. D., May 11.—Witness Avery, who was brought from Chicago, failed to identify Benedict as the man who was with embezzler Taylor at the time of drawing \$60,000 from the Exchange National bank of Chicago and the charge of grand larceny was dismissed. Benedict was rearrested on a charge of conspiracy. The probability is that he will be bound over.

Gresham Not to Resign.

Washington, May 11.—Politicians here do not regard favorably the story that Don M. Dickinson is slated to succeed Secretary Gresham at the head of the state department. A story was circulated this evening to the effect that the state department portfolio would again be tendered the eminent Michigan, but it can not be verified, and is not believed by usually well-informed men.

## TWO BROTHERS DIED FOR A BRUTAL CRIME

MISSOURI NEGROES PAY THE EXTREME PENALTY.

James and Edward Murray Executed For Killing and Robbing John Fitzwilliam's, a Conductor On a Suburban Street Car Line—Jury Find That Deustrow Was Sane.

St. Louis, May 11.—James Murray was hanged at Clayton at 6:55 o'clock this morning. His brother Edward Murray was to have been hanged at Harmon, Mo., at the same time. The two men are negroes and both are executed for the same crime, they having killed a street car conductor, John Fitzwilliams, who ran on a suburban line, for the purpose of robbing him on May 19, 1893. Both men embraced the Catholic faith.

St. Louis, May 11.—The jury in the Deustrow trial this morning declared the prisoner to be sane.

BIG CHICAGO STRIKE ENDED

The Illinois Steel Works Have Enough Men—Other Labor Troubles.

Chicago, May 11.—The backbone of the strike at the South Chicago steel works was broken yesterday by the company's formally discharging the seventy men who originally struck. Mr. Walker says the works will open Monday for business, and the fires in the furnaces will then be started. Four of the big blast furnaces will then be lighted up and the works will commence business with nearly a full force of men. Mr. Walker sent out word to the skilled mechanics employed in the steel works, who have not been at work since the seventy men first went out, that they might come back and go to work if they wished. About 500 men responded and went to their customary places, so that by 1 o'clock fully 1,500 men are at work. Strikers and their sympathizers kept out of sight this morning and an air of Potomac quiet pervaded the recently riotous town. At the mill gates and on the corners where crowds were likely to congregate strong guards of police were posted and their presence was sufficient to prevent any acts of destruction or molestation. No violence of any kind was attempted.

Many Weavers Shut Out.

Norristown, Pa., May 11.—Over 900 wage-earners in mills at Norristown and Bridgeport are in idleness owing to strikes at the Woodstock woolen mills and Rambo & Regier's stocking factory in this town and a shut-down of the entire plant of the James Lee's Sons Co. in Bridgeport. The weavers asked for the restoration of a 20 per cent reduction. The company offered to restore 10 per cent but this was refused, so the men quit work. Last week 100 girls and boys struck for an increase in wages. The hands were notified that commencing next Monday the wages would be increased to those prevailing previous to the reduction of 1894. Despite this concession there was a demand for larger advances, so the firm decided to close down indefinitely.

One Indiana Operator Gives In.

Brazil, Ind., May 11.—The first break in the ranks of the bituminous coal operators of Indiana, who have been holding out for a reduction in the mining scale, occurred yesterday, when Joseph Somers, the Staunton operator, drew out of the Operators' Association and threw his mine open, giving employment to 250 idle miners. He settled with his men at the old price. Other operators have manifested a determination to cut loose from the association, and a general stampede would not be a surprise.

West Virginia Miners' Quiet.

Bluefield, W. Va., May 11.—Everything was quiet last night among the miners. Captain Elam of the Farmville company, en route home, says Pocahontas, W. Va., was free from disturbance. About 250 new men are reported on their way here from northern places. Colonel Bullitt, of the South-west Virginia company, is determined to run his mines. Bluefield is nearly deserted and every one who can is leaving this section.

## GUESTS OF CYCLERS HAD A MERRY TIME

### ARROW CLUB'S FIRST PARTY A SUCCESS.

Fully Seventy-five Couples Enjoyed the Hospitality of the Organization and All Said That They Had a Splendid Time—The Decorations Were Novel and Handsome.

EVOTEEES of the wheel danced and made merry at the armory last night and the seven score of people who partook of the hospitality of the Arrow Cycling club all bear witness to the enjoyableness of the party. The affair was the first annual ball of the club. When Prof. John Smith's orchestra struck up the opening waltz all thoughts of "centuries" punctured tires, club runs and broken chains vanished from their minds and the lovers of the spidery "bike" became the admirers of the mazy waltz. Despite the fact that the black clouds were piled high in the horizon, that the night was warm and that there were other attractions in town, the attendance was large. Seventy-five couples attended and the party was all that the most enthusiastic members could desire.

Music and Decorations. Professor John Smith's orchestra never furnished better music; the decorations were pretty and appropriate, the refreshments were dainty and charmingly served. The committees had left no stone unturned to make the event an enjoyable one, and that their efforts had resulted in complete success, any of the seven score of people who participated will testify.

The decorations were as novel as they were tasteful. Over each window was suspended a bicycle and the selections showed the progress made by the wheel manufacturers. They were "graded up" from the ancient "boneshaker" to the modern, "built-like-a-watch" wheel of today.

The club colors, blue and maroon, were used in the decorations the bunting being very prettily arranged, while the letters "L. A. W." flanked by the stars and stripes, were tastefully arranged over the door. The orchestra sat behind a bank of flowers which, like the other decorations, were displayed to the best advantage. The attendance was largely confined to the younger society folk and some of the costumes were very beautiful.

The northwestern corner of the room was arranged as the refreshment parlor and ice cream and cake were served during the evening. The program consisted of twelve dances but several extra numbers were added before the hour for home going came. Ed. O. Smith, J. G. DeLong, W. W. Watt, F. P. King and E. V. Whiton had charge of the floor, while the reception committee consisted of W. A. Jackson, J. L. Mahoney, Dr. Charles T. Pearce, John Cunningham and Fred S. Sheldon.

Among those present from out of the city were Mr. and Mrs. A. Airis of Eau Claire, Wis.; Mrs. George H. Bliss, Chicago; George O. Ford, Chicago; W. W. Sheafe and A. S. Thompson, Beloit; Fred Hurd and Frank Nash, Madison; Owen Rockway, Galesburg, Ill., and Roy Clements, Rockford.

A Question.

Well, say, have you seen those lawn mowers that machine man is selling on River street, at \$2.35? We have, and bought one of them, and considering the fine quality of the machine we wonder how the American people make goods and sell them at that price. But they buy them of Lowell, the hustler.

KEEPING right at it, selling shoes; no difference how the profit is butchered, we will sell if we don't make a cent. Lloyd & Son.

## RESOLUTIONS FOR ALEX. GRAHAM

Fortnightly Club Took Action at Last Night's Meeting.

The Fortnightly club, at their meeting last evening adopted the following resolutions on the death of Hon. Alexander Graham:

Called upon to recognize that one who has heretofore been active among us, one of us, associated in the great purpose of forwarding the intellectual and moral unfoldment of the community in which we live, has passed on to better and broader environments, leaving a wide and ever widening space occupied by him as a member of our club, vacant; we feel that it is at least appropriate that we spread upon the records of this club, which he loved so well, our appreciation of his many noble qualities and our estimate of his character, influence and ability. In our associations with our friend and brother, the Hon. Alexander Graham, as a member of this club, we had opportunity to observe sides of his character not so decidedly prominent in his other ordinary walks of life. While he was not present at the organization of the Fortnightly club, and was not one of its earliest members, when he did become acquainted with its objects and workings, he made haste to unite himself with the club as an active member; and from the time of his introduction to the club up to the time when he ceased to be able to participate in any work outside of his home, he was a most faithful and able worker; his last public effort being the reading of a very carefully prepared paper before the club. He was naturally a student and was never happier than when engaged in some intellectual undertaking. He was a man of unusual intellectual powers, a full orbed man; efficient and capable in whatever he engaged; a sturdy helpful man; a man of broad mind and tender sympathies. The fact that he entered the active work of the Fortnightly club at nearly eighty years of age shows unmistakably that he recognized the fact that to cease to work is to commence to die; and the fact that after successful efforts, covering seventy-nine years, he was still living and growing in life by his work, is evidence that he is continuing on and that his change has been but a change of environment, and that "birth and death are allied functions of life, each the act or event of the emergence of an identity from a lesser to a higher state of existence."

We as members of the club he leaves, feel an additional incentive to perpetuate the work in which he was so actively engaged. We catch from his enthusiasm and faithfulness, the impulse to better and more faithful work. This bereavement brings to us a fuller understanding of our relation as a fraternal society, and leaves us with a deep personal sense of loss. To his family we can only say that our associations with Mr. Graham while he was a member of this club, helps us in a measure to understand your bereavement, and calls forth from us our truest sympathies; and we sincerely hope that you may be able to realize with Victor Hugo, that "the tomb is not a blind alley, it is a thoroughfare that closes with the twilight and opens with the dawn."

## REV. F. P. PULLAN'S FINE LECTURE.

California Entertainingly Described With the Aid of a Stereoscopic.

Rev. Frank B. Pullan took a Janesville audience on a delightful trip through California last evening. The journey of his hearers began at the north end of the state and ended at the southern boundary and the beauties and resources of that country were fully and entertainingly explained. The lantern slides used were particularly fine, the indistinctness of the ordinary stereoscopic picture being entirely overcome. Every line in the views was as clear cut as those of a high grade photograph, and their beauty added much to a lecture that was thoroughly satisfactory in every way. Rev. Mr. Pullan, who is the pastor of the Third Congregational church of San Francisco, is not unknown in Janesville, as he formerly made his home in the Bower City, and his mother, Mrs. Margaret L. Pullan, now resides here. Mr. Pullan is a particular friend of Rev. S. P. Wilder, they being classmates at both Beloit and Yale colleges. So much pleased was the audience who heard his lecture last evening, that they will endeavor to have him deliver his other lecture, dealing more particularly with Californian cities, when he returns this way on his way home next month.

If you keep pace with us, you'll hustle, because we are hustling, never before have we had so much to do, all because we are selling out a stock of \$30,000 worth of shoes, at 50 cents on the dollar. Becker & Woodruff.

We are putting in boilers now for future use. This is the season of the year when such articles are purchased and we are right in line with 2 of the best makes in the United States. Green & Allen.

## BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN  
THE CONTEST.

Five Shares of Stock in the Rock County Building, Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.  
It will buy a building lot.  
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

If the Baby is Cutting Teeth,

A Hop, Skip and Jump.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy on recovering his digestion through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquility, appetite and sleep return, the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

How He Tells the Time.

"My father," said the small boy to the woman who was calling on his mother, "is a great man. He knows what time it is without even looking at his watch."

"What do you mean, Tommy?" queried the visitor.

"Oh, when I holler out an ask him what time it is in the mornin, he allus says it's time to get up. An when I ask him what time it is in the evenin he allus says, 'Time to go to bed, Tommy.' Oh, I tell you my father is a great man."—Waterbury.

A Merciful Robber.

The citizen struggled.

"Let me alone, or I will call the police!" he cried.

The highway robber wavered.

"Do you mean it?" he demanded.

"Yes."

"You will really call the police?"

"Most assuredly."

The outlaw turned on his heel and walked away.

"I don't want to be the cause of his getting clubbed," he said.—Detroit Tribune.

## SECRETARY MORTON ON SILVER.

Secretary Morton has recently replied to a letter from James A. Cherry of Denver, on the coinage question. The letter contains the following paragraph which is a complete argument in itself, and is well worth analyzing by people who have an idea that the law can make a demand for silver:

"You ask, 'What creates demand?' and answer, 'use.' I ask in my turn 'What creates use?' and answer, 'demand.' Why is it that there is so little 'use' of silver dollars in this country today, while there are millions of them lying idle? I answer confidently, because there is no adequate 'demand' for them. Have you not innocently but badly mixed up 'cause' and 'effect' in this case? Demand, in the common sense, is nothing but desire for something on the part of one man coupled with his willingness to pay something for it, satisfactory to the other who owns it.

"Use' of that thing, no matter what it is, only follows the 'demand' for it. You have helplessly put the cart before the horse. What is the sense of clamoring still for 'unlimited coinage' when the treasury can not get rid by hook or crook of these 'already' coined and lying in useless heaps? They are well minted, of just weight, nine-tenths fine, are legal tender for all debts and bear the legend 'in God we trust.' What ails them? I answer, and so must you, on reflection, there is no 'demand' for them, and, therefore, no 'use' of them. What more can the law do for them?"

Henry Garnett, the well known statistician, computes the wealth of the United States at \$62,000,000,000 in 1890, an average of \$1,000 to each individual, greater than the wealth of any other nation. Five per cent of the wealth is owned by millionaires; twenty-seven per cent by people worth from \$100,000 to \$1,000,000; thirty-seven per cent by those worth from \$1,000 to \$10,000, and six per cent by those owning less than \$1,000.

What's the matter with the American hen, she can't compete with free trade. One million dozen foreign eggs have found their way to this country during the past six months.

The free silver sentiment in the south is less pronounced than it was a month ago, and the chances for a strong element in favor of sound money are encouraging.

Diphtheria Can Easily Be Kept Away From Children.

If you can destroy the germs of diphtheria then you can prevent any inroads of this malignant disease from entering your household. Any powerful antiseptic like "Septicide" will readily destroy the diphtheretic germ. If you will give your children a sip of "Septicide," say about a teaspoonful six or seven times a day, we assure you that it would entirely ward off the contagion. Even after the disease attacks the child, if you will give them a little of the remedy every fifteen minutes or spray it into the throat, the diphtheretic membrane will be readily removed. Try this and you will be convinced. For sale by Prentice & Evenson.

## W. W. HEAFFORD STRICKEN

Suffering From Appendicitis and an Operation May Be Necessary.

W. W. Heafford, district passenger agent of the Chicago, Milwaukee & St. Paul road, and a brother of General Passenger Agent Heafford of this line, who was located here during the World's Fair, was suddenly prostrated by sickness while on a train going from Milwaukee to Chicago. Mr. Heafford, who with his family resides on Farwell avenue, Milwaukee, started for Chicago yesterday to transact some business at the general offices of the road. When Chicago was reached he was taken to the Great Northern and his brother and son employed in the office of the general freight agent, were notified.

Mr. Heafford was brought to his home yesterday and is reported to be resting easily. The direct cause of the attack has been found to have been appendicitis. As yet it has not been determined whether or not an operation will be necessary. Mr. Heafford was for years the passenger agent of the St. Paul at New York, having been appointed by the late A. V. H. Carpenter. Two years ago he was transferred to Milwaukee, with the title of district passenger agent. While in Janesville he made many friends who will be pained to learn of his dangerous illness.

### D. M. BARLASS HAD A RACE FOR HIS LIFE.

Angry Bull Chased Him In the Field And He Had All But Reached Him When Roy Barlass Came To The Rescue and Stabbed The Bovine With a Pitch Fork.

D. M. BARLASS ran a race for his life this morning, and he didn't make any too quick time, either. Mr. Barlass resides on a farm near Emerald Grove, and his sprinting match was with a Jersey bull. He was walking through his yard when the animal suddenly made for him with "head down and tail up." Mr. Barlass at once realized that he would be much safer on the other side of the fence, and started on a run. He had a good start on his bovine highness, but the latter was the more fleet of foot and began to close up the gap between himself and his fleeing owner. Then Mr. Barlass called for help, and his fifteen year old son Roy, heard his call. The young man grabbed a pitchfork and hastened to the rescue. The race had gotten interesting by this time, and it was only after the bull had been stabbed with the fork half a dozen times that he was held back long enough to let his owner get to a place of safety.

J. N. ROBINSON, district passenger agent of the Northern Pacific railroad, was in the city yesterday in the interest of his company. ## JACK FROST COMING LOADED FOR BEAR

### THE PLANTS AND GARDENS WILL SUFFER TONIGHT.

Signal Service Predicts a Hard Freeze This Evening And Sends Out The Warning In Time—Wisconsin Now Combines Summer With Winter in a Graceful Way.

THE thermometers that register the temperature in Janesville are going to be taxed tonight. Yesterday and the day before the tops of the tubes were fairly forced out by rising mercury. Tonight the bulb will probably go to pieces and spill the shining metal all over the veranda floor.

A heavy frost is headed this way, and it will arrive some time tonight. It is going to be a regular blitzer from Bittersville, Manitoba, they say, and all people who haven't yet hung up their overcoats, one way or another, are advised to get them out. Incidentally it would be a wise plan for housewives to cover up their flower beds, for they say that when Jack Frost comes, he will be prepared to pinch parades and blight sweet peas in the most approved style of the art. "Garden sass" that has been "sassy" enough to poke its shoots up through the earth, will also suffer, for they say that the gentleman who will handle the breath of Boreas tonight is in league with the green grocers and the southern market gardeners.

Reports Corroborate Each Other. There is no getting around the fact that the frost is coming. The employees of the St. Paul freight depot were working in their shirt sleeves this morning and planning on their summer vacations, when a man with an ulster coat and velvet "ear bobs" came from the telegraph office with a piece of yellow paper. He handed it to Agent P. L. Henrichs and the agent scanned it over. Then he went home and sawed wood. It read:

"P. L. HENRICH, AGENT—Heavy frost in Wisconsin tonight except in the lake regions. W. W. COLLINS, Superintendent."

Then the janitor was instructed to get the fire ready for lighting and to fill up the office wood box. Ticket Agent Samuels thought about his house plants, etc., and tonight they will bow their heads under the back numbers of The Daily Gazette. The company sent the same message to every agent on the road and they pride themselves that the St. Paul prophets are as good on weather as any other man's prognosticators.

Government Says So Too. This is no railroad advertisement and the coming cold wave is no joke. When the youthful emissary of that great and good corporation, the Western Union Telegraph company, handed Weather Clerk Burnham a yellow envelope this morning he unconsciously backed up the St. Paul's weather expert. Clerk Burnham opened the envelope and read this screed:

"Heavy frost in Wisconsin tonight except in the lake region, etc."

Then he took the street music that told told about spring flowers and other hot weather predictions out of the window and hung up "Jingle Bells" and "That Little Old Red Shawl."

"It only lacked eight degrees of freezing last night," he remarked, as he removed his official "black eye" and laid down the watch that had the pneumonia or something of that kind. "The frost tonight I expect, will be heavy enough to spoil flowers and touch up the gardens a bit. It is too bad, too, after everything has gotten such a good start," he added as he resumed his work on the afflicted time piece.

The Official Report. Later on Mr. Burnham plucked up courage and fixed up the official record as follows:

Forecast: Fair and colder tonight, with heavy frosts except on the lake shores. Sunday fair and warmer by evening.

The temperature as recorded by S. C. Burnham & Co. during the last twenty-four hours was as follows: 7 a. m. 48 above 1 p. m. 57 above 3 p. m. 55 above 5 p. m. 40 above Wind north.

All of which goes to show that as a summer resort today and a winter resort tomorrow, Wisconsin is about the best state in the Union.

CYCLERS TO GO ALL DIRECTIONS If the Weather is Fine the Wheelmen Will Be Out in Force

Good weather prevailing tomorrow, the country villages will swarm with Janesville wheelmen. One party of fifteen or twenty will visit Evansville; another party goes to Milton Junction and perhaps Whitewater; one to Beloit, and small parties will make excursions into the country nearer home.

Peter Turbit. Mrs. Peter Turbit, 301 South Jackson street, has received the sad news of the death of her husband, Peter Turbit, whose demise occurred at New Orleans last week after a painful illness with pneumonia. Two small sons are left to share the sorrow of the widow.

TO BEGIN ON THE WELL MONDAY. Gray Brothers' Machinery Is Here And Is Being Put in Place.

Work has been commenced on the new artesian well of the Janesville Water Company. The well is being drilled on lot 13, block 6, Railroad addition, on South Jackson street, opposite the west terminus of Oak street.

W. H. Gray & Brother of Chicago, have taken the contract to drill the well. Two carloads of their drilling machinery have arrived and is now being unloaded at the site of the proposed new well. It is expected that drilling will commence Monday. The well will be similar in size to the one at the pumping station, with eight-inch tubing. The new well will be drilled down until a good supply of water is obtained, perhaps to the same depth as the first well. The Gray Brothers have been engaged in drilling wells for many years, and have the best improved machinery for this work.

HELPED FILL UP ROCK RIVER. Stoughton People Had to Take the Pressure From Their Dam.

Stoughton people contributed quite a bit of water to the Janesville mill owners the other day when Catfish creek, which flows into Rock river near Fulton, got on the rampage. The water broke through the embankment in one or two places, and for a time there was every indication that the whole structure would go out unless the damage was speedily repaired. Several planks were removed, permitting the water to flow over, which relieved the pressure to a considerable extent, and unless heavy rains come before permanent repairs are made there is probably no immediate danger. By the letting off of the water the river at that place has been lowered several feet.

## MARY MINARD FREED FROM HER HUSBAND

### MILTON JUNCTION WOMAN GOT A DIVORCE TODAY.

She Swore That Her Spouse Had Not Only Beaten, Choked and Neglected Her, But Had Backed Up a Threat By Flourishing a Doubled Barreled Shotgun.

"Get off the place or I will blow your brains out," exclaimed Samuel M. Minard, addressing his wife Mary as she entered the gate for the purpose of securing some chickens which belonged to her.

Then she began to plan for a divorce.

The Minards were married five years ago, and resided on a farm near Milton Junction. They did not live very happily although two children had been born to them. Samuel was in the habit of cruelly and inhumanly treating his wife and calling her all manner of names, she said. At last he neglected to provide for her in any manner, and she brought suit for divorce, the case coming up before Judge Bennett in the circuit court chambers this morning.

The plaintiff testified that for some time past she had been cruelly and inhumanly treated in the hands of her husband. On one occasion he seized and choked her; then he refused and neglected to support her, and that when she went onto the farm for the purpose of securing the chickens which belonged to her, he stood in the doorway with a doubled barreled gun and threatened to kill her. The defendant did not testify, and the court granted a judgment of divorce, giving the custody of the children to the plaintiff.

**She Let Him Off.**  
Wife—My dear, I need a little more of this stuff and some trimming to match. I wish you would stop into Biggs, Sale & Co.'s and get it.  
Husband (a smart fellow)—Let me see. Oh, I know. That's the store where they have so many pretty girls, isn't it?  
"Y-e-s."  
"Yes, I remember. That blonde girl at the trimming counter knows your tastes and will doubtless select just the sort of trimming you want. I mean the girl with the golden hair, alabaster skin, blue eyes and sweet little—"

**An Unhappy Interruption.**  
"You must have been very much upset by the fire in your house last night, Jennie."

Butcher—Yes; that's it! I found it just where my wife said it was at first.—Puck.

She was a little girl, playing with her doll. Some one overheard her saying softly to herself: "Diet! diet! diet!"

**Secrets Will Out.**  
"Now, you must not let this go any further," said Watts to McDavid after retelling a choice bit of scandal.

**Best of the Best.**  
Last month I cleared, after paying all expenses, \$235.38; the month before \$186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Endicott, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, every family will very soon have a Perfection. Try it and publish your experience for the benefit of others. Mr. Gotham—No, I never have a particle of fear on the ocean. Don't you know, sir, that one is safer on a transatlantic flyer than on a city street?

### MISS FRANCES WILLARD MAY WED

Story is Floating About Woman's Temperance Circles in Chicago.

Dispatches from Chicago say that a story has been floating around in women's temperance circles during the last few days to the effect that Miss Frances Willard, the famous temperance leader, may be led to the altar before the autumn leaves have begun to fall. Like most of the material out of which gossip is formed the story is a trifle hazy, the gentleman in the case being alluded to, without name, is an Englishman of wealth and position and of prominence in reform work across the water. Among Miss Willard's most intimate friends the story receives no credence. They say that if she contemplated any matrimonial alliance they ought to be among the first to know it, and they point to the fact that she is just entering upon her fifty-sixth year as an evidence that she is not likely, at such a period in her life, to assume the cares of a home. Moreover, she has not hinted at any prospective change in her domestic relations in any of her recent communications.

### BOWER CITY NEWS NOTES.

It will be a crime some day to sell awful old shoes. We leave that branch of the shoe business to people who have a capacity and a trade for that class of goods. We pride ourselves on having the cleanest, best sized stock in southern Wisconsin. Brown Bros. & Lincoln.

It has been more than a month since we had a sale, but next week we'll commence to keep the boys busy. Our stock of hardware that we purchased in Aurora, is the best ever shown in any town and the prices will knock all competition "end ways." Watch for opening announcements. Lowell Hardware Co.

AFTER you have been around the town and looked at the odds and ends of the old stocks now on sale come to us and we will give you a surprise by showing you bright new goods at the price of plunder. Don't get into any tramp. Brown Bros. & Lincoln.

WHEN it comes down to selling goods cheap you'll find us right in the front leading. We never step behind a single inch. Always keep ahead that much. Lawn mowers \$2.35 same as others charge \$4 for. Lowell Hardware Co.

HYPONOTISM is the merest fad. We don't have to hypnotize our customers to sell those North shoes. It requires no argument to sell the goods. Brown Bros. & Lincoln.

We have opened the eyes of hundreds of shoe buyers to the fact they have been paying too much for their footwear or buying old out of date stuff and paying the price of new. We are doubling our last year's trade. Brown Bros. & Lincoln.
